

**Your Clinical Endpoint Expert**

MERIT is an innovative, global clinical trial endpoint services provider specializing in multiple therapeutic areas, including:

**Ophthalmology**

Our ophthalmology team are experts in managing and evaluating images, especially with ocular diseases affecting the retina.

**Respiratory**

MERIT offers agile and attentive centralized spirometry expertise as a reliable respiratory services provider.

**Oncology**

We provide end-to-end central oncology imaging services powered by our proprietary single system software, EXCELSIOR™.

**Cardiac Safety**

MERIT provides standardized collection and review of cardiac safety data.

**Neurology**

MERIT provides imaging services for neurological clinical trials, particularly those that include retinal biomarkers.

**Dermatology**

MERIT supports dermatology clinical trials focusing on scar measurement.

Our decades of experience allow us to hit the ground running on your project. You can feel confident in our proven track record; MERIT has provided endpoint expertise to twelve of the top twenty global pharmaceutical companies. Our clients rely on us as a trusted R&D partner.

# WHY MERIT?

Gain assurance with our proven track record providing reliable endpoint expertise to 12 of the top 20 global pharmaceutical companies

Reap the benefits of competitive pricing and shortened timelines resulting from efficiencies gained over decades of experience

Benefit from transparent communication and prompt access to in-house experts

Reduce clinical trial risk. Our experienced team delivers risk management by anticipating your study challenges

Increase your trial's flexibility with our scalable solutions. We adapt quickly to your changing needs

Rely on MERIT consistently meeting customer and regulatory requirements as validated through our ISO 13485 certification

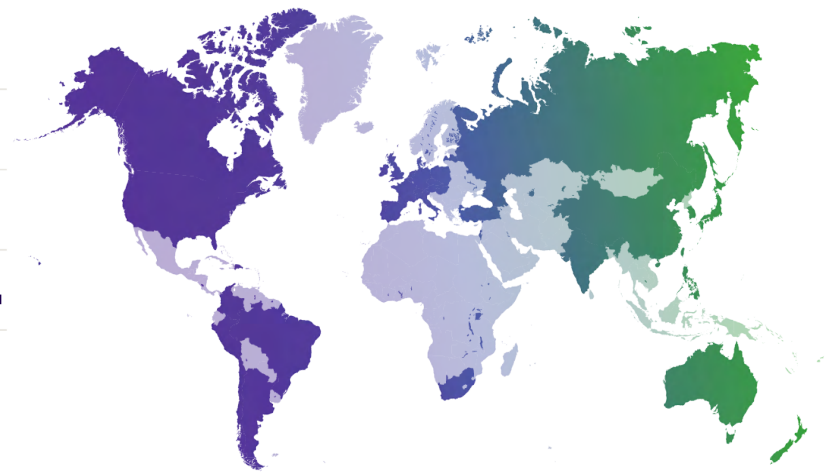

Enhance the efficiency and accuracy of your imaging data collection and analysis with EXCELSIOR™, our cloud-based software solution

Simplify and streamline your pulmonary clinical trial process with CompleClinical®, MERIT's innovative spirometry software application

## EXPERIENCE BY THE NUMBERS

TOTAL TRIALS HOSTED	<b>315</b>

COUNTRIES	<b>58</b>
TOTAL USERS	<b>20,604</b>
TOTAL PARTICIPANTS	<b>57,298</b>

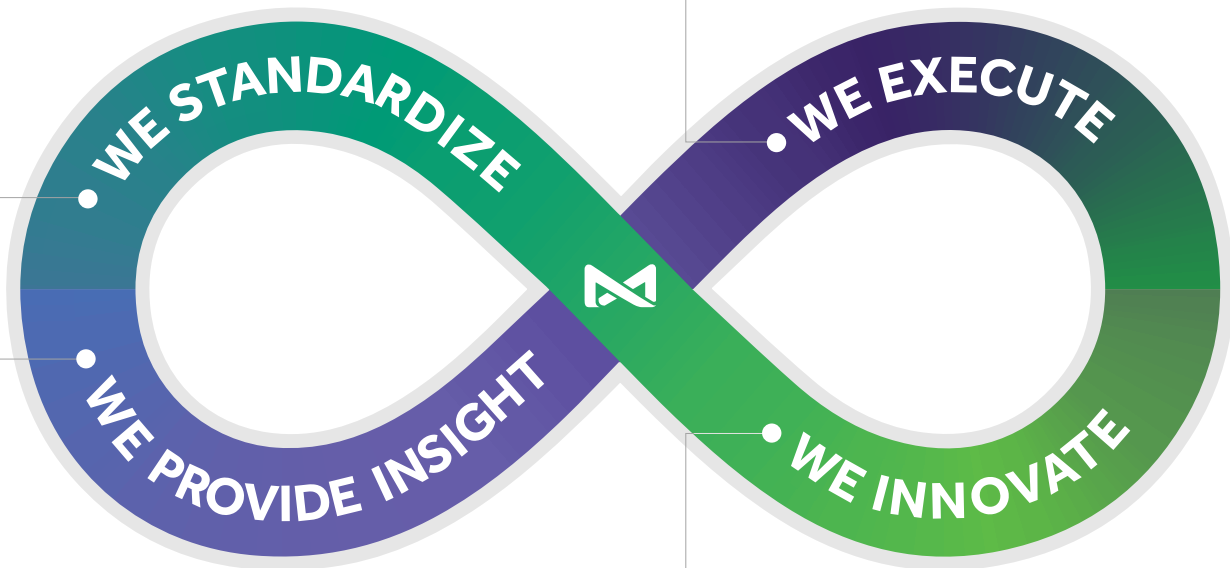

## WHAT WE DO

MERIT partners with CROs, pharmaceutical, and biotech companies to deliver reliable endpoint services in global clinical trials. Together our work advances and accelerates the improvement of therapeutic options for patients worldwide.

- MERIT delivers standardized processes for site certification, data DICOMization, reader variability monitoring, and data output. This reduces data variability and risk by providing higher quality data.

- Our project management team provides personalized attention, collaborating closely with our partners to focus on details that drive study milestone achievement and increase site engagement.

- With decades of experience and deep knowledge in specific clinical domains, our team provides insight and actionable information in endpoint assessment. MERIT experts add value to your study by acting as an extension of your medical team.

- MERIT's EXCELSIOR™ technology platform increases accuracy and efficiency by providing a suite of advanced endpoint analysis tools designed based on our extensive collaboration with biopharma companies.

Connect with us to learn more about how our expertise and approach can support bringing your product to market on-time and on-budget. Your success is our priority.
