In-Depth Information on MERIT's Visual Acuity Services

Full, Abbreviated, and Express Certifications for VA Examiners

- Development of detailed BCVA and refraction procedural manuals for ophthalmic technicians for certification
- Full site examiner certification to include training session and certification assessment
- Express examiner certification assessed through questionnaire, online meeting, or phone call

Confirmation of Acceptable Equipment

- Review and confirmation of acceptability of BCVA equipment may be performed at sponsor's request

Full and Express Certifications for VA Rooms

- Evaluation of room condition including lane environment, space, and equipment access
- Checklist for lane preparation provided prior to certification
- Certification assessment and documentation

Certificates Maintained in EXCELSIOR™

- Examiner and room certification forms maintained in EXCELSIOR

MERIT'S VA SERVICES (CONTINUED)

Scheduling, Tracking & Reporting of VA Certification Study Activities

- Distribute BCVA and refraction procedural manual to site staff
- Develop and distribute a site survey to discover who at the site will need to certify for BCVA and refraction procedures as well as information about the site equipment
- Track and schedule site training and certification
- Provide coordination among sites, certification team, Sponsor, and others (as applicable)

Upload and Centralized Data Review of VA Source Documents

- MERIT's cloud-based EXCELSIOR platform allows immediate upload of source documents directly from qualified sites to a central database for centralized data review, without installing software or configuring firewalls. This elevates efficiency and accuracy in the acquisition and upload of BCVA source docs
- Our centralized data review of BCVA source documents in EXCELSIOR can easily be configured to meet sponsor and study requirements. Our expert data review team can help ensure BCVA values are accurate

VA Room Equipment Procurement

- Project Management staff coordinate with sites, equipment vendors, and the study team to order required VA equipment for sites, as needed
