

CRO Partnerships *With MERIT*

MERIT is an innovative clinical trial endpoint services expert providing reliable and attentive expertise in our therapeutic areas. Specialized expertise informs every aspect of our CRO partnerships.

Many full-service CROs have elected to integrate and use our solutions to manage the imaging and data management elements of their clinical studies. Through our relationships with our partner CROs, we are thoroughly familiar with the hurdles that you face and what is required to meet and exceed your customer's expectations. This specialized expertise informs every facet of our relationship with you, making our partnerships more efficient and simpler.

Ophthalmology

Our ophthalmology team are experts in managing and evaluating images, especially with ocular diseases affecting the retina.

Respiratory

MERIT offers agile and attentive centralized spirometry expertise as a reliable respiratory services provider.

Oncology

We provide end-to-end central oncology imaging services powered by our proprietary single system software, EXCELSIOR™.

Cardiac Safety

MERIT provides standardized collection and review of cardiac safety data.

Neurology

MERIT provides imaging services for neurological clinical trials, particularly those that include retinal biomarkers.

Dermatology

MERIT supports dermatology clinical trials focusing on scar measurement.

WE TAKE CLINICAL TRIAL DATA FROM INPUT TO INSIGHT.

Our therapeutic area scientific expertise informs every aspect of our clinical trial endpoint solutions. MERIT's decades of proven experience allow us to hit the ground running on your project, providing shorter start up times for your study. With dedicated commitment to your project goals, our responsive and resourceful staff act as an extension of your team.
