

Are you getting the attention you deserve from your respiratory services provider?

MERIT offers a responsive, flexible partnership for spirometry endpoint services.

Whether you're a biotech sponsor just launching your respiratory pipeline, or you have a long-standing relationship with a respiratory services provider, it may seem like you only have one choice for your spirometry clinical trial endpoint services. MERIT represents a reliable alternative in respiratory service providers, offering agile and attentive centralized spirometry expertise.

Some large respiratory service providers have so many current clients that your project may seem like a tiny cog in a big machine. MERIT prioritizes a collaborative, partnership-driven approach for all projects with scalable solutions and personalized attention.

Our qualified respiratory therapists can be contacted with one simple phone call or email.

We are often able to provide competitive pricing and shortened timelines for our sponsors and partners through efficiencies gained from over 30 years of experience conducting respiratory trials.

With MERIT, you benefit from:

EXPERT, AGILE TEAM: MERIT's project management team provides personalized attention, collaborating closely with our partners to focus on details that drive study milestone achievement and increase site engagement.

SWIFT SOLUTIONS: Our qualified respiratory therapists can be contacted with one simple phone call or email. Sites get the swift assistance they need, and sponsors benefit with improved subject qualification and retention.

EASILY CONFIGURABLE SOFTWARE: MERIT's innovative software application, CompleClinical®, features highly customizable workflows that help facilitate rapid study startup and enrollment.

CONTINUOUS DATA ACCESS: All study stakeholders – from sponsor to CRA to data reviewer – have access to the current study data on an ongoing basis.

Some companies tend to overpromise and underdeliver, which puts your study success at risk. If you're looking for a spirometry services provider that will value your partnership and make your study a priority, consider MERIT.

WHY MERIT?

Gain assurance with our proven track record providing reliable endpoint expertise to 12 of the top 20 global pharmaceutical companies

Increase your trial's flexibility with our scalable solutions. We adapt quickly to your changing needs

Reap the benefits of competitive pricing and shortened timelines resulting from efficiencies gained over decades of experience

Rely on MERIT consistently meeting customer and regulatory requirements as validated through our ISO 27001:2013 and ISO 13485 certification

Benefit from transparent communication and prompt access to in-house experts

Simplify and streamline your pulmonary clinical trial process with CompleClinical®, MERIT's innovative spirometry software application

Reduce clinical trial risk. Our experienced team delivers risk management by anticipating your study challenges

We understand the drug discovery process is complex and demanding, and the clinical stage is resource-intensive and high-risk. MERIT has the proven respiratory experience to help you accelerate your product development. Our specialized expertise informs every facet of our relationship with you, making our partnerships simpler and more efficient.
